

NERO

MULTI-FUEL HEATER

Want to come home to a warm house after a long day at work? Simply pour your favourite fuel into the hopper and press the start button.

The Nero does the rest!

In fact the Nero can be programmed to start and stop so you can wake up to, or come home to a warm house.

The Nero can be run manually or operate on the in-built thermostat to give a constant temperature throughout your home.

When running on grain, the Nero will run from 10-17 hours before clinker removal.

When running on woody wastes such as crushed olive pits or wood pellets the Nero will run for up to 48 hours without needing to be opened. Even then, there will only be approximately 2 cups of ash in the slide out ash tray.

The Nero offers contemporary European styling and is well suited to any sized area.

With advanced digital controls, the Nero Heater can be programmed to burn a wide range of fuels from wheat to pellets and pits offering you cheap heating as well as thermostatic control and automatic start/stop via remote control.

This is the lowest emission & highest efficiency wood pellet heater in Australia.

Fully tested & compliant to strict Australian standard regulations AS/NZS 4886-2007.

Technical Info	
Height:	900mm
Width:	455mm
Depth:	475mm
Weight:	80kg
Maximum Heat:	7kw
Minimum Heat:	3kw
Fuel Consumption	0.5-1.2 kg/h
Hopper Capacity:	13kg
Power Consumption:	<100w
Thermal Efficiency:	> 92%
Auto Ignition:	Yes
7 day start/stop timer:	Yes
Maximum noise:	50dB
Remote Controlled:	Yes
Auto Clean Programming:	Yes
Multi-fuel options:	Yes
